

Kibo Katalog Rest Api

API Live Uri : <https://data.kibokatalog.com/>

Please use the test user information below.

Email : test@kibokatalog.com

Password : katalogtestdata

Response Explanations:

At the success response status : the parameter "kiboType" is "success" and "kiboCode" is "1".

At the failure response status : "kiboType" is "failure" and "kiboCode" is "0".

The response parameters "kiboMessage" and "errorCode" include the error information and code.

METHODS

Auth

POST Login

<https://data.kibokatalog.com/api/auth/login>

you can login with this method using kibo member email and password.

The response parameter "errorCode" values:

"AU10000" = invalid access or terminated token

"AU10001" = Login Success

"AU10002" = Mail or password wrong

"AU10003" = user passive

"AU10004" = Software license expires

Login Parameters :

email : test@kibokatalog.com

password: katalogtestdata

```

    "pageError": "200 OK",
    "kiboType": "success",
    "kiboCode": 1,
    "kiboMessage": "Api login ok",
    "errorCode": "",
    "data": []
  }
}
}

```

GET LogOut

<https://data.kibokatalog.com/api/auth/logout>

Terminate active session or token

HEADERS

Authorization

Bearer \$access_token

```

curl --location --request GET 'https://data.kibokatalog.com/api/auth/logout' \
--header 'Authorization: Bearer

Stok

GET stokList

https://data.kibokatalog.com/api/stok?rec_status&barkod&kburtkod&rec_date_start&rec_date_end&rec_list=&rec_date_type&time&resp_type=xml&page=1&limit=10

Get Kibo Catalog Product List.
Response data type : xml or json
Max 5 requests/minute.

HEADERS

Authorization

Bearer \$access_token

PARAMS

rec_status

Product Record Status. 0:Aktif, Active, 1:Pasif, Passive, 2:Arşiv, Archive: Not Using Anymore.
For all data leave it empty

barkod

One product query. Example: 9789754737134 or product query with multiple csv data. Example : 9789754737134;9786055420796;9786056472923 separated with ';'.

For all data leave it empty

kburtkod

Kibo manufacture or publisher code.

If you do not know kburtkod you can use any barkod for the publisher's product.

For all data leave it empty

rec_date_start

Update start date. Example: 2021-11-02

For all data leave it empty

rec_date_end

Update end date. Example: 2021-11-09

For all data leave it empty

rec_list

Response model data type. 0:Detailed product format 1:Standard Book Format 2:Short price and status format.

For standard format leave it empty

rec_date_type

If 0 or empty last additions and updated products. 1:only new products. This parameter can use with "time" or "rec_date_start","rec_date_end" parameters together.

time

before X second updated or created products. Optional.

For all data leave it empty

resp_type

RESPONSE EXPLANATIONS:

uruntip : Product material type. For book it is "Kitap"

kibokod : barcode, product unique special kod. like ean13 code. for example "9786059692014"

fiyat : Product list price. for exapmple 69.99

kdv : Tax. now in turkey tax is 0 for book.

iskonto : Discount. as Percent. Generally 0.

indirimli : Discounted Price. For example. with %0 Discount 69.99.

parakod : Currenct unit. TRY,USD,EUR.

durum : Product status. for Active records "aktif". For Passive records "pasif". For arsive, out of sales records "arsiv"

urunad : Product name. For example "Acıyan Yerini Bul"

uretici : Producer, publisher name. For example: Sola Unitas Academy

urecikod : Kibo unique Publisher Code. for example "75241"

kategori : Product category. for example "Edebiyat | Roman - Günümüz"

anakatad : Main category. Example "Edebiyat"

altkatad : Sub Category Example "Roman - Günümüz"

kategorikod : Kibo category unique code for example "KB9082000"

yazar : Author For example "Kılıç Arslantürk"

ceviren : Translator

sayfa : Page count. For example "224"

basyer : Publishing place. For example "istanbul"

bastarih : Publishing date. For example "2015-12-20"

basnum : Edition Number. For exapmle "1"

dil : Publishing Language. For example "Türkçe"

kapak : Book Cover type. For example "Karton"

kagit : Book page paper type. For example "2.Hamur"

ebat : Book size mm. Width-Height-Thick For example "135-210-50"

agirlik : Product weight. gr. for example "224"

miktar : Product stock amount. For example "1000"

resimurl : Product jpeg image cdn url. for example "https://cdn.kibo.com.tr/prd/4/1/KB9786059692014.JPG"

urundetay : Product description details. For example "Her zaman olduğu gibi şimdi de tüm seçenekler önünde. Dilediğini seçmekte özgürsün."

ek kodlar : Other barcodes for this product.
